TC100 —THE PRICE

The AVATAR™ TC100 Universal Terminal Converter is a Z80A/8088 dual microprocessor-based system with 128KB RAM that converts a dumb terminal into an intelligent workstation with personal computing capabilities. Designed for users with large memory requirements, the TC100 is available in single- or double-drive diskette configurations. The AVATAR TC100 includes some of the industry's most popular operating system, application and development software. In addition, powerful AVATAR utilities enhance system performance by allowing file and data transfer between the host computer and the TC100, user-friendly storage media copying and formatting capabilities, and diskette conversion.

Single-Drive Systems	Model	Price
TC100 System with single-sided double density drive (205KB)	1216	$2195
TC100 System with double-sided double density drive (410KB)	1217	$2345
TC100 System with double-sided quad density drive (820KB)	1218	$2595

Double-Drive Systems	Model	Price
TC100 System with single-sided double density drives (410KB)	1226	$2695
TC100 System with double-sided double density drives (820KB)	1227	$2995
TC100 System with double-sided quad density drives (1.6MB)	1228	$3495

All TC100 Systems include: CP/M® (7001); CP/M-86® (7006); ASCII File Transfer (7002); WordStar® (8001); CalcStar® (8002); and CBASIC® (8010)

Hardware System Options	Model	Price
Parallel (Centronics-type) printer interface	6001	$175
Add-on Memory Board (128KB RAM)	6006	$325

Hardware Subsystems (see configuration notes)	Model	Price
Diskette Add-on—Single-sided double density (205KB)	5001	$550
Diskette Add-on—Double-sided double density (410KB)	5002	$700
Diskette Add-on—Double-sided quad density (820KB)	5003	$950
5MB Hard Disk Add-on plus parallel interface	4001	$2695
10MB Hard Disk Add-on plus parallel interface	4002	$3095
20MB Hard Disk Add-on plus parallel interface	4003	$3895

AVATAR System and Packaged Software	Model	Price
CP/M V2.2 plus AVATAR Utilities Package	7001	$175
ASCII File Transfer Package	7002	$125
CP/M Diskette Conversion Package	7003	$150
CP/M-86 V1.1 plus AVATAR-16 Utilities Package	7006	$275

AVATAR Applications and Language Software	Model	Price
WordStar —Word Processing	8001	$495
CalcStar —Electronic Spreadsheet	8002	$145
SpellStar® —Spelling Verification	8003	$250
MailMerge® —Merging	8004	$250
DataStar® —Data Handling	8005	$350
SuperSort® —Sorting and Merging	8006	$250
InfoStar® —Data Base Manager	8007	$495
WordMaster® —Text Editor	8008	$150
SuperCalc® —Electronic Spreadsheet	8009	$195
CBASIC —BASIC Compiler	8010	$150
MBASIC® —BASIC Interpreter	8011	$350

AVATAR™

CONFIGURATION INFORMATION

Communications Suffices

All TC100 systems ordered must include one of the following three-digit suffices (e.g., 1227-001):

001	25 pin universal EIA cable
002	Data General 605X EIA
003	Data General 605X current loop
004	Data General D200-type current loop
005	Digital Equipment Corporation VT-type EIA
006	Modem cable off terminal port

Software Suffices

All software ordered (7000 and 8000 model numbers) must include one of the following three-digit suffices (e.g., 8001-101):

101	Double-density (48TPI)
201	Quad-density (96TPI)

Cable Model Numbers ($75/each)

Order the corresponding model number if:

9002	Modem cable is connected to auxiliary/terminal port
9003	Modem cable is connected to host port
9001-001	Printer is connected to auxiliary port

(note: 9001-001 supports the following serial EIA printers: NEC Spinwriter; Diablo 630 WHPRO5 interface (software busy only); Anadex Dataroyal 5000; Papertiger; Dataproducts M120/200.)

Parallel Printer Port

(options 6001, 6003, 4001, 4002, and 4003)
This port is terminated in a 37-PIN DB female connector and is Centronics compatible. No cable is included.

Diskette Conversion Model Numbers

The CP/M diskette conversion package supports the following double density formats: Osborne, VT18X, and Xerox 820.

Host Computer Information

The following host computer operating systems are supported under Rev. 2.00 of the software:

AOS	TOPS-10
AOS/VS	TOPS-20
RDOS	RSX-11M
PRIMOS	UNIX Version 6
VAX/VMS	UNIX Version 7
RSTS	User defined host

Configuration Notes

- 5001 and 5002 applicable to 1216 and 1217 only
- 5003 applicable to 1218 only
- 4001, 4002, or 4003 cannot be added to systems with 6001, 6002 or 6003 options

ORDER INFORMATION

To ensure that your order is filled correctly please include, with your purchase order, the following information:

- "Bill To" address
- "Ship To" address
- Shipping contact and telephone number
- Quantities requested
- Model numbers
- Short description of ordered items
- Net prices and discounts (if applicable)
- Special carrier (if desired)
- Contract numbers (if existing customer)
- "Partial Shipments Allowed" (if acceptable)

New accounts must also include the following:

- Program License Agreement (93-0002)
- Credit Application (unless order is pre-paid)
  End-User Agreement (93-0003)

The materials contained herein are summary in nature, subject to change and intended for general information only.
